# Cobra

- Aimed at the power cruiser/ touring/custom market
- Incorporates sports tyre technology for nimble handling
- Special construction to deal with heavy loads
- Incredible stability and longevity – perfect for touring
- Unique 'snakeskin-effect' sidewall and aggressive tread pattern
- Extra wide sizes for custom bikes
- Ultra-quiet
- Unique pattern for Honda Goldwing fitment
- Available in a wide range of sizes, incorporating fitments for Harley Davidson's V-Rod, Triumph's Rocket III, Honda's Goldwing and Valkyrie plus some sizes for custom bike applications

From snakeskin sidewalls to aggressive tread, Avon's Cobra tyres are perfect for custom machines. We've applied expertise gained constructing race tyres to the cruiser market, creating WCTA - Wide Custom Tread Arc – a new tyre profile that gives Cobra the agility once the sole reserve of race-bred bikes, all without disrupting stability. And A-VBD – Advanced-Variable Density Belt – improves handling in the much wider Cobra sizes. A jointless belt of ultra-strong material increases stability and boosts wear resistance, while the tread pattern significantly reduces irregular and advanced wear on bikes that carry heavy loads.
