

# Azaro Pro-Xtreme Rain:

- Deeply grooved tread pattern designed to expel water from contact patch area
- Tread pattern extends to tyre shoulders to expel water even at high lean angles
- Rubber compound specially formulated for wet conditions to give superb grip

Working on the theory that some people want to carry on riding on track whatever the weather, Avon has developed the Azaro Pro-Xtreme Rain specifically to provide top-notch performance in wet conditions. The tread pattern features deep, specially shaped grooves to channel water away efficiently from under the contact patch.

And because of the way bikes are used on circuits, those grooves extend all the way to the shoulders so that they can continue to provide optimum performance even when your bike is cranked right over.

A special wet weather rubber compound adds to this tyre's performance.

As well as being an excellent wet surface ally, the Azaro Pro-Xtreme Rain boasts all the dynamic characteristics of Avon's other high performance tyres – good balance through bends, superb stability under braking and hard acceleration, and an all-round feeling of confidence.

- Designed specially for circuit use
- Confidence inspiring in poor conditions
- Road legal for Supermoto application

## Specification

Size	Load/Speed Index	Rec Rim (inch)	Alt Rim (inch) Min/Max	Overall Width (mm)	Overall Dia (mm)
------	------------------	----------------	------------------------	--------------------	------------------

### AV49 AZARO-SP PRO-XTREME RAIN FRONT

120/70 R17	58H	3.50	3.50 - 3.75	116	603
